The InvestiGator Club Earns Golden Lamp and Distinguished Achievement Awards

Chicago, Ill. (June 11, 2014)—The InvestiGator Club® Prekindergarten Learning System with STEAM, a comprehensive inquiry-based program for the preschool classroom from Robert-Leslie Publishing, has been honored with Golden Lamp and Distinguished Achievement Awards for the 2014 Recognized Valuable Educational Resources (REVERE) Awards. The program is named in the whole curriculum category for both awards.

The InvestiGator Club PreK with STEAM is a culturally rich, fully integrated preschool curriculum that focuses on ten critical domains of learning. The program uses engaging stories, charming characters, and the innate curiosity of youth to motivate children to think, solve problems, communicate, and investigate their world.

"Being honored with a Golden Lamp and Distinguished Achievement Award recognizes the success educators and students have experienced using The InvestiGator Club," said Judith Coffey, CEO of Robert-Leslie Publishing. "By focusing on purposeful inquiry, our curriculum engages students and helps develop their critical thinking skills."

Presented by the Association of American Publishers' PreK-12 Learning Group, the REVERE Awards program is the most respected and comprehensive recognition program in the learning resource community. This annual event continues a decades-long tradition of honoring excellence across all resources for preK-12. Three rounds of judging include a screening by the National Educator Review Panel, a professional review and a certification.

Finalists and winners were honored at the REVERE Awards Gala on Wednesday, June 4, during the Content in Context conference in Washington, DC.

About The InvestiGator Club®

The InvestiGator Club Prekindergarten Learning System is a fully integrated, developmentally appropriate curriculum that utilizes children's natural curiosity to build skills in ten critical learning domains, including language, literacy, science, the arts, and math. Evidence gathered from an extensive national study conducted by the Educational Research Institute of America (ERIA) with more than 500 children in 32 classrooms shows that this learning system is significantly effective with all groups of children, including those considered "at-risk". InvestiGator Club products have received numerous awards, including the Teacher's Choice Award and Creative Child Magazine's Kids Product of the Year, Preferred Choice Award, and Seal of Excellence. For more information, contact customer.service@robert-leslie.com or visit the website at www.investigatorclub.com.

About Robert-Leslie Publishing

Robert-Leslie Publishing, The Early Childhood Company® is dedicated to the principle that the early years are the most valuable time to build the foundation for a child's lifetime of success. The company's founders, James and Judith Coffey (CEO), with more than thirty years of educational publishing experience, assembled a team of early childhood experts in 2005, to accomplish RLP's mission of helping children succeed through the publication of research-based

learning materials. For more information, visit http://www.robert-leslie.com/.
